

LAA PLUS

supporting you to deliver LAA outcomes

NETWORK OFFER 2008 - 9

LAA PLUS is the only national network dedicated to helping people deliver their LAAs.

We bring local authorities and LSPs together from across the country to learn from one another.

Working with our members, we've built up an unparalleled store of knowledge over the past five years.

This year, we're focusing on the personal and organisational skills that are needed to deliver LAAs, with events on facilitation, negotiation, strategic commissioning and much more.

What do I get if I join?

We offer a unique mixture of services:

- An **initial diagnostic meeting** on how we can best support you
- **Tailored delivery support:** members get an allocation of tailored delivery support, which you can adapt to fit your needs.
- **Annual events programme** including Action Learning Sets and Personal Development Sessions.
- **Indicator workshops** on the most common NIs
- **Briefing papers, case studies and learning notes** on the latest policy developments and good practice
- **Newsletter and the LAA Helpline:** the first point of contact for any LAA query

How can LAA PLUS help me?

Joining LAA PLUS gives you:

- **Access** to a personal development programme designed around LAA delivery skills
- **Confidence** that you're up to speed on the latest policy and practice
- **Time and space** to talk to your peers about common problems
- The **support** of the LAA PLUS team and a national network of colleagues who face similar challenges

How much is it to join?

Membership of the network is £2,500 per year (exc. VAT).

Non-members can attend events on a pay-as-you-go basis at £300 per event.

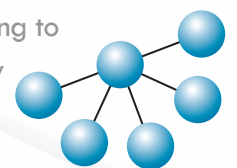

What our members say

"I thoroughly enjoyed the event. It was pitched at just the right level and I look forward to attending other PLUS events"

"The Personal Development Session was excellently managed to get real value. I can see immediate value to my work and feel confident about putting what I've learned into practice"

"Thanks very much for the LAA news bulletin. Looks like some very good pieces on LAAs that I can learn from"

Shared Intelligence is one of the UK's fastest growing independent consultancies working to improve the quality of life of our most disadvantaged communities.
